FORMULATING ADVANCED

Natural Color Cosmetics

COURSE ROADMAP AND PREREQUISITES

We are so excited to welcome you to **Formulating Advanced Natural Color Cosmetics**!

Advanced natural color cosmetics brings together two areas of formulating: creating pigment blends, covered in detail in [Formulating Mineral Makeup](#); and formulating a variety of product types such as anhydrous balms, oil-based gels, aqueous gels and emulsions. The magic happens when you combine these two areas to create a wide range of makeup products in different formats, including cheek tints, liquid highlighters, mascara, eye shadow crayons, lipsticks, lip liners, cream blush and many more.

Formulating Mineral Makeup is a complete five-module course that teaches you the essentials of creating makeup products: the ingredients and equipment required, color theory, how to blend pigments and how to make a wide range of loose and pressed mineral makeup products including foundation, eye shadows, blushers, bronzers and highlighters.

Formulating Advanced Natural Color Cosmetics takes your skills to the next level. You will learn how to apply the color theory you learned in **Formulating Mineral Makeup** to an exciting range of product formats so you can create makeup products just like those you will find for sale from high-end brands. This course has prerequisites: certain modules from **Formulating Mineral Makeup** need to be completed first.

You can choose to only study **Formulating Mineral Makeup** or you can take both **Formulating Mineral Makeup** and **Formulating Advanced Natural Color Cosmetics**, the choice is yours! When you complete both courses you are eligible to receive our **Diploma in Formulating Natural Makeup and Advanced Color Cosmetics**.

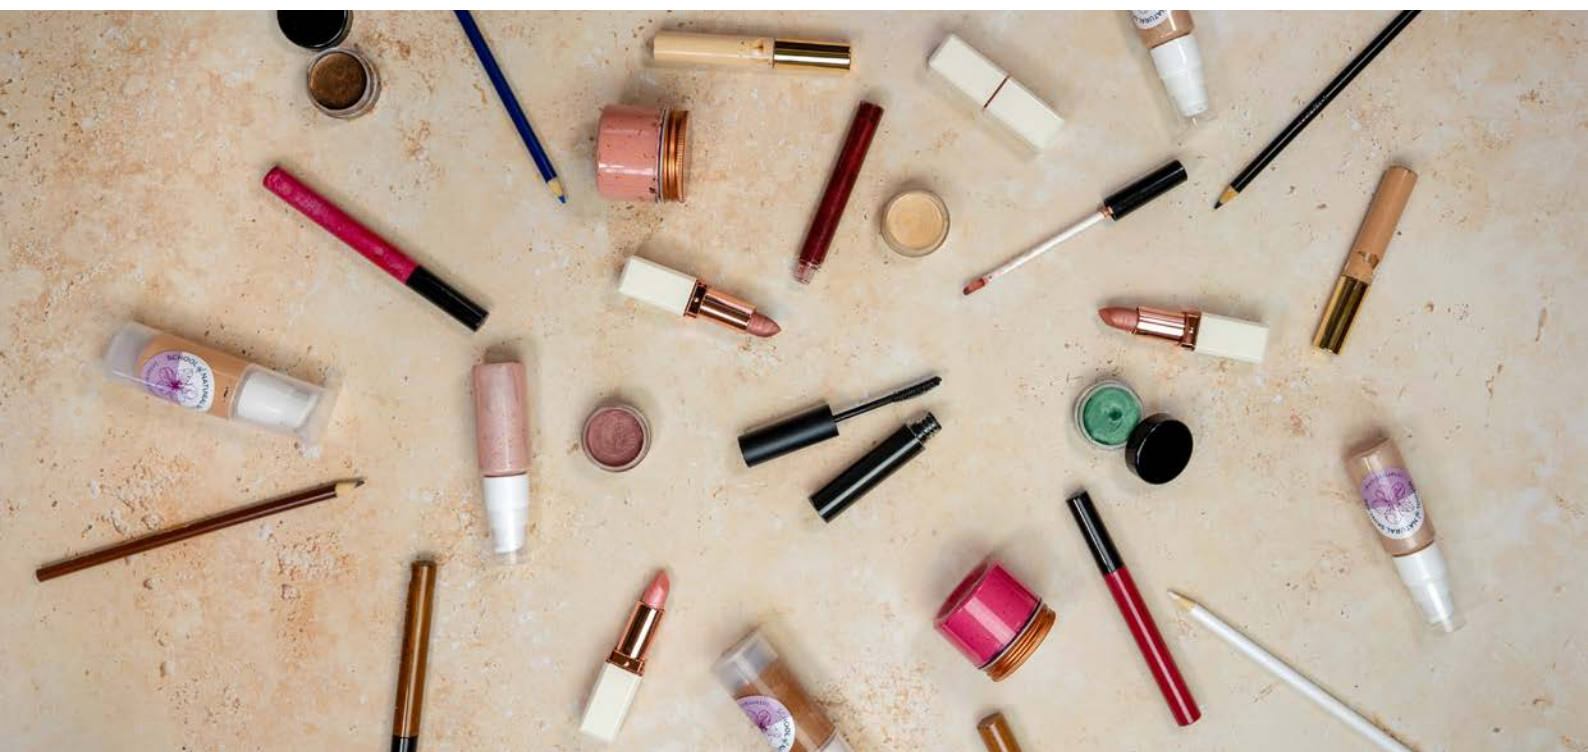

The **Diploma in Formulating Natural Makeup and Advanced Color Cosmetics** is the most comprehensive study option.

If you don't wish to complete the full **Diploma in Formulating Natural Makeup and Advanced Color Cosmetics** you could choose to specialize only in lip products, foundations, eye makeup or blushes/bronzers/highlighters, if you wish.

YOUR LEARNING JOURNEY ON THE DIPLOMA IN FORMULATING NATURAL MAKEUP AND ADVANCED COLOR COSMETICS

In order to be eligible to receive a certificate of completion for the **Diploma in Formulating Natural Makeup and Advanced Color Cosmetics**, you will need to complete the following ten modules plus the end-of-course assignments:

	Formulating Advanced Natural Color Cosmetics – Module 4: Advanced Blushers, Bronzers and Highlighters	100

*This module is a prerequisite

FAQS

I want to take Formulating Advanced Natural Color Cosmetics without taking Formulating Mineral Makeup first. Can I do this?

No, that isn't possible. This is because the modules of **Formulating Mineral Makeup** contain essential theory that you'll need to understand in order to successfully make the advanced types of color cosmetics taught in **Formulating Advanced Natural Color Cosmetics**.

I only want to take one module from Formulating Advanced Natural Color Cosmetics, can I do this?

Yes. If you only wish to learn about one type of color cosmetic product (for example lip products or foundations) then you can. However, you'll need to complete the required prerequisite modules before taking your chosen module from **Formulating Advanced Natural Color Cosmetics**. Please see the section called **Specializing in one type of makeup product** for more information about prerequisites and specialized learning pathways.

If I choose to specialize in just one type of makeup product, can I get a certificate?

No, there isn't an assessment and certificate option if you choose this route. If you wish to gain a certificate there are two options. Firstly, you can complete **Formulating Mineral Makeup** to receive a **Certificate in Formulating Mineral Makeup** or secondly, you can complete both **Formulating Mineral Makeup** and **Formulating Advanced Natural Color Cosmetics** to receive our **Diploma in Formulating Natural Makeup and Advanced Color Cosmetics**.

Can I just take one module from Formulating Mineral Makeup?

Formulating Mineral Makeup has one prerequisite which is **Module 1: Mineral Makeup Theory**. After completing this essential theory module, which lays the foundation of knowledge, you can continue with the subsequent modules (you can choose as many or as few of these as you wish). So for example, if you only wish to learn about mineral eyeshadows, you would take **Formulating Mineral Makeup Module 1: Mineral Makeup Theory** and **Formulating Mineral Makeup Module 3: Mineral Eye Shadow**.

I only wish to take Formulating Mineral Makeup, is that possible?

Yes, absolutely.

I have completed Formulating Mineral Makeup and now I'd like to 'upgrade' to complete the Diploma in Formulating Natural Makeup and Advanced Color Cosmetics. How do I do this?

After completing the five modules of **Formulating Mineral Makeup** you'll need to complete the five modules of **Formulating Advanced Natural Color Cosmetics** and then submit your assignments to us. Once you have successfully passed the assignments we will issue you with your certificate of completion.
